

## Driving innovation at scale for enterprises

Combining the power of Google Cloud with DXC Technology's expertise in managing mission-critical workloads, DXC provides a collaborative and secure managed platform for innovation.

### DXC and Google Cloud at a glance

DXC Technology's strategic partnership with Google Cloud enables enterprise customers to take advantage of the agile and secure Google Cloud Platform (GCP) — with its best-in-class reliability, network and uptime performance — to modernize mission-critical IT and integrate digital solutions.

### About Google Cloud

Google Cloud accelerates organizations' ability to digitally transform their business with the best infrastructure, platform, industry solutions and expertise. We deliver enterprise-grade cloud solutions that leverage Google's cutting-edge technology to help companies operate more efficiently and adapt to changing needs, giving customers a foundation for the future.

### Customer benefits

Many enterprises realize that their future competitive advantage and ability to respond to market disruption depend on having new ways to interact with their employees and customers and on quickly transforming their business model to execute digital transformation. Migrating applications to Google Cloud can mean a faster time to market for your enterprise, and that can contribute significantly to your ability to compete and grow your business.

By combining the power of Google Cloud with DXC Technology's expertise in managing mission-critical workloads, DXC provides a collaborative and secure managed platform for innovation on Google Cloud. Your enterprise can focus on accelerating growth and innovating in your core businesses and eliminate the heavy lifting of supporting your underlying IT infrastructures.

DXC and Google invest in joint development and delivery of Google Cloud solutions, bolstered by DXC's decades of managed services expertise. By integrating Google Cloud into your enterprise strategy, you can expect to achieve the following:

- Accelerate Google migration and application development
- Significantly increase and accelerate IP and innovation on Google Cloud
- Better leverage DXC IP on the Google Cloud platform

### Joint offerings/solutions

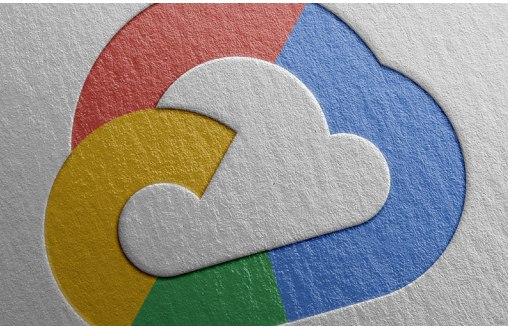

Enterprises can save money and increase efficiency by running applications on Google Cloud versus running them on-premises. DXC has made the investment in Google Cloud environments, certified experts and regulatory standards for a variety of industries — so you don't have to. Together, DXC and Google Cloud offer:

#### **Enterprise modernization, migration and cloud-native capabilities.**

Enables the seamless modernization, management and migration of mission-critical applications and workloads with automation, agility, speed and scale.

#### **Data-driven insights with analytics, artificial intelligence/machine learning (AI/ML).**

Drives valuable insights by combining Google Cloud's analytics and AI/ML capabilities with DXC's deep industry knowledge and experience.

### About DXC Partner Ecosystem

The DXC Partner Ecosystem is a curated ecosystem of partner relationships built on a foundation of collaboration, differentiation and innovation. Together, we work to deliver the right solution and the right team to address complex, critical customer business challenges. Learn more at [dxc.com/partnerecosystem](https://dxc.com/partnerecosystem).

### SAP on Google Cloud Platform (GCP).

Delivers reduced downtime, flexible scaling, fast upgrades and advanced analytics. Plus, DXC provides end-to-end managed platform-as-a-service (PaaS) capabilities.

**DevSecOps.** Leverages pre-integrated capabilities to allow you to focus on innovation of your business applications, rather than the details of complicated deployment scenarios.

### Differentiation

We extend our customers' IT capabilities using skilled DXC Google Cloud experts. They offer experience in architecting, managing and optimizing Google Cloud, leveraging DXC best practices and operational skills and using DXC's tools, processes and services for risk mitigation, security and regulatory compliance.

As a technology-independent partner, DXC delivers the full life cycle of cloud professional and managed services and is also a global reseller of Google Cloud services.
