

# Enabling the future of work, today

DXC Modern Workplace for Apple prepares organisations for the future with enhanced employee experiences, increased productivity, AI-empowered work and superior security. Make the most of Apple's powerful and flexible platform for business with DXC Technology.

## We understand what future-focused enterprises need to remain competitive and scalable:

### Employee experience

Enhance the employee experience with AI-powered tools and solutions to unlock efficiency and boost productivity.

**60%**

Fewer support tickets filed per device with Mac.<sup>1</sup>

**3.5%**

Increased productivity per employee with Mac.<sup>1</sup>

### Security

Protect sensitive data and maintain trust with customers and stakeholders while ensuring all regulatory compliance.

**90%**

Reduced risk of a data breach per deployed Mac.<sup>1</sup>

### Advanced AI capabilities

Leverage real-time, on-device AI processing for immediate insights and actions, and cloud-based AI for more complex, large-scale projects.

### Control costs

Increase collaboration, reduce inefficiencies and device complexity, and control costs through a cohesive and unified work environment.

**186%**

Return on investment (ROI).<sup>1</sup>

**<33%**

Reduced device support and management costs.<sup>1</sup>

**56%**

Less energy consumed by Macs vs PCs.<sup>1</sup>

**3x**

Device residual value after four years of use.<sup>1</sup>

## DXC Modern Workplace for Apple is made for business, delivering:

## The partnership that forward-thinking leaders have been waiting for

# The DXC difference

Leverage proven local and global expertise that supports modern ways of working.

### 6.9 million+ devices managed

DXC is one of a select few authorised Apple managed service providers (MSPs).

### 70 countries

DXC delivers Tier 1 support for every Apple device.

### 435+ unique customers

DXC manages more than 700,000 Apple devices worldwide.

### 4.7 million+ managed desktops

DXC provides world-class support through Jamf support and Intune integration.

# The Apple difference

Grow your business through secure, scalable, user-centric solutions that support productivity and advanced AI.

### Choice

Give employees the freedom to use the Apple technology they love and first-rate experiences while doing so.

Happy and engaged employees perform better.

### Performance

97% of Mac users claim increased productivity.

Mac works seamlessly with the iPhone and iPad devices already connected to the Apple platform.<sup>2</sup>

Every Mac today is built for AI and machine learning, powered by Apple silicon and Neural Engine.

### Cost savings

Mac saves money.

Mac is built to last. A longer lifespan means Mac can lower costs by 20% to 40%.<sup>3</sup>

**The opportunity to provide a first-class experience built on security, cost-effectiveness and support is now.**

DXC's service desk and site support cover all IT support needs for the Mac environment, with integrated OS support and AppleCare for Enterprise.
