

# Reimagine how technology supports the workforce with DXC Modern Workplace for Apple

DXC's expertise with Apple technology delivers service excellence across security, infrastructure integration (Apple Business Manager, MDM, and Entra ID), device optimisation, and user support.

## Mac is leading year-on-year growth, with many IT leaders choosing to invest in Apple devices:\*

Decision makers are prioritising AI-enabled devices, and 100% of Mac devices with Apple silicon have enhanced AI capabilities.

Employers are listening to the requests of employees, particularly in hybrid environments.

Windows 10 support ends 2025, driving a commercial refresh. Many companies were pushing refresh cycles out, waiting for more advanced PCs. AI-enabled Mac is the ideal solution.

**Three out of four employees** choose Mac when given the choice.<sup>^</sup>

Now, technology leaders can confidently invest in Apple devices, knowing that DXC supports enterprise objectives and delivers expert implementation and management of Mac devices.

## What would Mac device management look like in your organisation?

### Productivity unlocked

Enterprises want to achieve new levels of employee productivity and are empowering employees with AI-powered tools that unlock efficiency.

**56%**

less energy consumption with Macs compared to PCs.<sup>#</sup>

**90%**

reduction in the level of risk exposure from a data breach due to a lost or stolen asset with Mac.<sup>#</sup>

**60%**

fewer support tickets filed per device with Mac.<sup>#</sup>

### A comprehensive, end-to-end solution

Identify and automate tedious processes, meet specific enterprise needs with holistic solutions, and leverage Apple's built-in accessibility features like VoiceOver, Switch Control, and Live Captions, all of which enhance inclusivity without requiring additional software or hardware.

**700,000+**

Apple devices supported by DXC across the globe.

### Decrease complexity

Simplify operations by providing employees a personalised, seamless, and secure modern workplace experience.

#### Increase user self-sufficiency

and reduce time to resolution.

#### Improve operational efficiency

with DXC's 60 remote support centres.

#### Achieve TCO savings of \$547

per Mac deployed over five years.<sup>#</sup>

#### Zero-touch deployment,

security and compliance, and automated management.

# The DXC Modern Workplace for Apple difference

Reduce operational costs and maximise workplace efficiency by streamlining management and security processes, ensuring seamless, secure, and scalable Apple platform management.

Apple Business Manager offers zero-touch deployment, security and compliance, and automated management.

DXC delivers deployment readiness and service delivery excellence.

DXC's service desk and site support cover all IT support needs for the Mac environment with integrated OS support and AppleCare for Enterprise.

DXC's large global footprint and enterprise experience makes it the ideal partner for not only managing hardware but also unifying the entire IT infrastructure.

As an Apple Managed Services Provider, DXC offers Device Procurement Services, Apple Financial Services, Professional Services, and Integrated Service Desk offerings, including AppleCare for Enterprise and AppleCare OS Support.
