

DXC Process Industries Solutions

## Simplify work processes and stay competitive

Growing customer expectations, fierce global competition and stricter regulations are putting your revenue under pressure. DXC Process Industries Solutions offer unique capabilities to simplify your work processes and optimize your business with:

### Extends standard Dynamics capabilities with

- Advanced packaging management
- Advanced quality and sample management
- Approved customer and vendor list
- Extended production handling
- Automatic production control and release
- Product lifecycle management
- Extended mobile device support

### Tried and tested across Scandinavia

- 30+ years of industry experience
- More than 4,500 daily users
- Used in food & beverage, chemicals pharmaceuticals and plastics industries

### Microsoft solution compatibility:

- Microsoft Dynamics 365 for Finance and Operations (now Dynamics 365 Finance and Dynamics 365 Supply Chain)
- Microsoft Dynamics AX 2012 R3

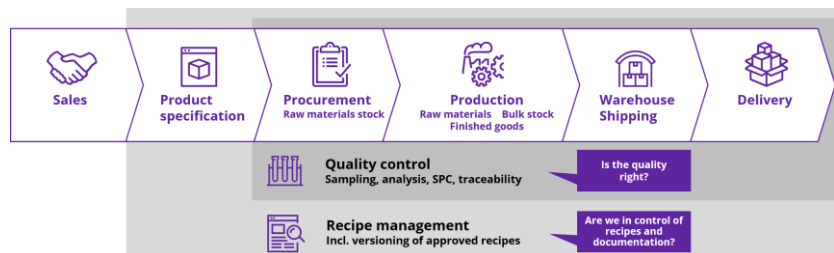

- **More effective processes** – built on best practices from process industries
- **Deeper business insight** – integrated with your business-critical applications
- **Traceability, quality, security and documentation** – to meet the demands of customers and authorities
- **Better operational decisions** – based on insight into product properties
- **Responsiveness and flexibility** – for uninterrupted production and revenue flow
- **A standardized solution** – that meets over 90% of customer needs.

### Essential process industry capabilities across your value-chain

Optimize your entire end-to-end process from first customer contact, through production and delivery of goods, to ongoing customer service – supported by project management, collaboration and reporting capabilities that maximize your cash-flow and keep you competitive.
