

DXC Technology Carbon Reduction Plan

Xchanging UK Limited

2024

Carbon Reduction Plan

Supplier name: Xchanging UK Limited

Publication date: 16.09.2024

Commitment to achieving Net Zero

Xchanging UK Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2019	
Baseline year emissions: April 2018 – March 2019	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	408
Scope 2 Market-based	691
Scope 3 (Categories 4,5,6,7,9)	577
Total Emissions	1,702

Current Emissions Reporting

Reporting Year: 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0
Scope 2 Market-based	0
Scope 3 (Categories 4,5,6,7,9)	0
Total Emissions	0

Emissions reduction targets

In order to continue our progress to achieving Net Zero the global parent company DXC Technology has adopted a carbon reduction target of 65% by FY30. Xchanging UK Limited contributes to this target and we project that carbon emissions will remain below 50 tCO₂e by FY30. This is a reduction of 97% compared with the baseline. This reduction is in excess of the ICT sectoral decarbonisation pathway from Science Based Target initiative to limit warming to 1.5°C. Progress against these targets (using Market-based scope 2 emissions) can be seen in the graph below:

Carbon Reduction Projects

Various environmental management measures and projects have been completed or implemented since the 2018-19 baseline. The cumulative carbon emission reduction (using Market-based scope 2 figures) achieved by these schemes and additional minor changes to date equates to 1,702 tCO2e, a 100% reduction against the 2018-19 baseline and the measures will be in effect when performing the contract:

Emissions reduction schemes (FY19 Baseline - FY23)

Adopting a Virtual First approach: Reducing the property portfolio, encouraging flexible working for employees and cutting commuting emissions. The final site associated with this entity was closed in FY23, with the full impact realised in FY24.

Reduced business travel and use of fleet vehicles.

Emissions reduction schemes (FY24)	Annual tCO2e saving (FY24)
Reduced business travel and use of fleet vehicles.	1 (scope 3)
Reduction of property portfolio.	80 (scope 1 and Market-based scope 2)

Note that there are no locations associated with Xchanging UK Ltd. We anticipate minimal (if any) emissions associated with this entity in the future.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Sue Ann Averitte, Vice President ESG
