

ASSURE LEGAL

DXC Assure Legal (formerly DXC Legal Solutions Suite) is a subscription-based litigation management solution that provides secure invoice submission, automated bill review, legal matter management, and data-driven analytics and insights.

User benefits and value proposition

Savings and speed: Typical savings of 7% – 9% from consistent, expert bill review and guideline enforcement; faster cycle times with automation

Operational control: Centralized guidelines, rates, budgets and visibility across matters and firms

Better decisions, faster: Real-time, customizable dashboards and drill-downs to answer questions on demand

Adoption and experience: Intuitive workflows for users (admins, adjusters, outside counsel, etc.); consistent process across lines of business

Technical and integration capabilities

API-based integration with DXC’s AWS-hosted environment

Proven integration experiences with systems such as Assure Claims, Guidewire, Duck Creek and proprietary claims systems

Standard APIs provided during implementation, with integration testing support

Integrations support automation around case intake, payments, user/firm updates, budget approvals and more for a seamless experience

SSO/MFA, role-based access

Sandbox environments for testing

Additional information and differentiators

No additional costs for firms/vendors to submit

Dedicated success team from implementation through post-go-live (account manager, analytics, help desk, integrations; optional bill review)

Community-powered innovation: User community and customer advisory boards help shape roadmap and share experience and best practices

Experience and scale: 30+ years in legal cost control; first in legal cost control; backed by 14,500 insurance professionals
