

PROPERTY AND CASUALTY INSURANCE

Protecting what works. Extending with confidence. Transforming at your pace.

Run policy, billing, claims and reinsurance on a platform built for how insurers operate today. DXC helps insurers – including MGAs and TPAs, and Self-Insured organizations reduce complexity, improve decision-making with AI, and move faster – without replacing everything at once. Deploy what you need now – or connect it all over time. The DXC Assure portfolio includes:

Assure POINT: A scalable, easy-to-configure administration solution for commercial, personal, and specialty lines designed to accelerate speed-to-market.

Assure Billing: Supports diverse billing models and digital workflows, reducing technical debt and lowering total cost of ownership.

Assure Claims: Automates the entire life cycle from FNOL to payout via AI-driven workflows and 24x7 self-service portals.

BPS: Proven business process framework, and digital capabilities including AI to improve speed to market, simplify operations, and reduce costs.

Assure Reinsurance & Assure Cede: Global market-leading solutions for complex assumed and ceded reinsurance with no-code configurability.

Assure Commercial & Specialty: A unified platform for MGAs and Lloyd's syndicates leveraging AI/ML and blockchain for multi-market operations.

Assure Legal: Only end-to-end litigation management solution

that combines AI-powered bill review, seamless outside counsel collaboration and data driven analytics and benchmarking.

Assure Risk Management: A cloud-based platform for self-insured employers that integrates incident and claims management to improve safety.

Smart Apps: Modular, AI-driven workflows that are designed to integrate with any systems to automate complex tasks and deliver measurable results quickly.

Assure Vendor Management: Streamlines collaboration with Vendors and provides AI powered Bill Review.

Notification Service: Automated delivery of mandated notices for lienholders (U.S. only).

Health Check: Proven methodology to chart personalized digital roadmaps and goals.

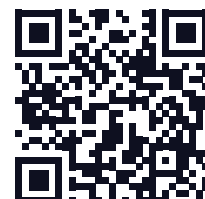

Managed Services: Specialized technical and business expertise to augment personnel.

Bureau Reporting: ISO, NCCI, NISS reporting service.
