

# RESPONSIBLE AI PRINCIPLES

## We are transparent

DXC values trust and is open about our responsible use of AI, providing clarity around how AI supports our work and benefits our customers, partners and employees.

## We are ethical

At DXC, we believe in doing the right thing. We follow our corporate ethical standards when using AI and remain vigilant of the evolving AI regulatory landscape.

## We are inclusive

DXC fosters a culture of inclusion and fairness — and the same applies to our use of AI, with an emphasis on promoting equitable outcomes and reducing the influence of bias.

## We respect privacy

Protecting the privacy of our customers, partners and employees is of the utmost importance to DXC. When using AI, we will continue to comply with applicable privacy laws and regulations.

## We are secure

At DXC, we promote data security and integrity, enabling our stakeholders to make decisions with confidence. Our AI practices reinforce strong protections against cyber threats and vulnerabilities.

## We are reliable

We do what we say we are going to do. We assess and test our AI tools and leverage proven patterns when delivering AI solutions.

# WE ARE HUMAN

DXC takes a human-centric approach in the development and use of AI. We incorporate empathy, common sense and human oversight into our AI solutions at every stage of the process and emphasize augmenting human abilities.
