SPF (Solution Provider Framework 2) (PCD 997)	The Solution Provider Framework (SPF) forms part of the core elements of Digital Policing's Solution Delivery Model (which supports the Met Strategic Delivery Framework) as it will reduce time and cost for all parties to complete a competitive tender, and significantly increase the speed of delivery to resolve business and operational challenges.	Lot 1: - Systems Integration	https://www.london.gov.uk/programmes-strategies/mayors-office-policing-and-crime/governance-and-decision-making/mopac-decisions-0/solution-provider-framework-20

NHS OneLondon Local Health and Care Record Dynamic Purchasing System (DN441104)	The aim of the Local Health and Care Record Exemplar (LHCRE) Programme is to create an information sharing environment that helps health and care services continually improve the treatments they use while ensuring that care is tailored to the needs of each individual, and can empower people to look after themselves better and make informed choices about their own health and care. As all of the NHS Trusts in London, including acute, community, mental health and ambulance are already NHS LPP members (as are all of the London CCGs), the OneLondon programme board approached NHS LPP to support them to access the advanced capabilities and infrastructure they require, while ensuring that vendors have the required experience and expertise in delivering integrated care and population health management solutions.	• Sub-Category 1.1: Supporting Effective Interface • Sub-Category 1.2: The Provision of Cloud Hosting Solutions • Sub-Category 1.3: Supporting Data Standards & Normalisation • Sub-Category 1.4: Supporting Audit and Tracking • Sub-Category 1.5: Supporting Strategic Transformation • Sub-Category 1.6: Supporting Information Governance • Sub-Category 2.0: Social Value Systems	https://www.lpp.nhs.uk/categories/clinical-digital-solutions/onelondon-local-health-and-care-record-dynamic-purchasing-system-(dps)/
---	---	---	--

Network Services 3 (RM6116)	All UK public sector organisations can access network solutions, communication services, connectivity to cloud-based data and applications, audio and video conferencing, radio and satellite networking, and emerging technologies such as Internet of Things (IoT) and Smart Cities.	• Lot 4b: Digital Communication Services (Unified Communications) • Lot 4c: Contact Centre Solutions	https://www.crowncommercial.gov.uk/agreements/RM6116
Cloud Compute 2 (RM6292)	You can access all core cloud computing services either directly through cloud service suppliers or indirectly with the support of a resell supplier. Core services include: • PaaS: provides platform tools needed to create applications that will provide a service over the internet (as well as other things). • IaaS: provides compute, storage, networking and other hardware capabilities. • Microservices such as third party subscription services that run in customer tenancies and are directly related to the usage, security, governance, optimization and/or management of your core services.	• Lot 1: Core Services • Lot 2: Value-Added Ancillary Services • Lot 4: Cloud Secure+	https://www.crowncommercial.gov.uk/agreements/RM6292
