

DXC at Dell Technologies World

May 18 – 21, 2026 | Las Vegas

The Venetian Expo

201 Sands Avenue, Las Vegas, NV 89169

What makes DXC different?

- **End-to-end capability.** Advisory, implementation, optimization and AI enablement across Dell infrastructure and platforms
- **Proven global delivery scale with Dell expertise.** Thousands of accredited DXC consultants and specialists with deep knowledge of Dell technology
- **Industry accelerators that speed time to value.** Prebuilt use cases and validated design patterns that leverage Dell AI Factory and hybrid cloud infrastructure to accelerate outcomes
- **Pragmatic, outcome-led AI approach.** Focus on delivering production-ready AI and data analytics solutions using Dell hardware and software
- **Long-standing strategic partnership with Dell.** One of Dell's longest-standing alliances with deep integration across infrastructure, cloud, AI, security and hybrid IT stacks

Dell Technologies World is a place for hands-on innovation, major announcements, visionary keynotes, deep-dive learning and huge networking opportunities. This event is Dell's biggest stage for showcasing what's next in AI, cloud, edge, security and infrastructure.

Attendees can expect to hear from industry leaders, gain hands-on experience with Dell's latest hardware and software innovations, and connect with global technology decision makers.

A partnership that delivers true value

DXC Technology is the strategic transformation partner that turns Dell innovation into enterprise-wide impact — helping organizations operationalize AI, modernize hybrid infrastructure and accelerate measurable business outcomes.

While Dell showcases the latest advancements in AI infrastructure, data platforms, edge and multicloud environments, DXC demonstrates how to implement, scale and operationalize these technologies in complex enterprise environments.

Where does DXC fit in the market?

DXC is a strategic transformation partner to Dell Technologies. We combine enterprise-scale digital modernization, pragmatic AI adoption at scale and mission-critical infrastructure transformation — moving organizations from exploration to measurable business value with Dell Technologies.

What problems do we solve better than our competitors?

Many organizations struggle to turn AI and infrastructure investments into measurable operational value. DXC and Dell bridge this gap, combining Dell's technology leadership with DXC's transformation expertise to deliver secure, scalable, production-ready outcomes.

Year recognitions

Why choose DXC?

Organizations choose DXC when they need to move beyond infrastructure upgrades and AI pilots with Dell — and realize measurable business value quickly, securely and at enterprise scale.

DXC breakout sessions at Dell Technologies World

Session 1: From Technical Debt to AI Advantage with C2I & Agentic Ops

Enterprise IT teams face growing complexity across hybrid infrastructure, security and service demands. DXC showcases OASIS — our persona-aware, agentic AI platform — as a confidence layer that improves visibility, decision support and control in mission-critical environments. A technical debt score quickly assesses current state and AI readiness. Consolidate to Innovate reduces debt, funds modernization and accelerates AI-driven transformation.

Presenters: **Holland Barry**, Field Chief Technology Officer for Global Infrastructure Services, DXC; **Daniela Weidenbach**, Field Chief Technologist for Global Infrastructure Services, DXC

Session 2: AI-Driven Experience Management for Productive Workplaces

The future of work is experience-led, productivity-focused and AI-powered. Organizations need better experiences at lower cost, integrated solutions, and a clear path to scale AI. DXC's Intelligent Workplace delivers unified solutions that meet clients where they are, leverage existing investments, and drive adoption by design. With Dell, technology ownership is separated from experience delivery, maximizing flexibility and life-cycle performance.

Presenters: **Kelly Candler**, Vice President, Modern Workplace & Business Process Services, DXC; **Nina Gonzalez**, Senior Director, Intelligent Workplace, Customer & Product Experience Strategy, DXC
