

# DXC Environmental Policy

## About Us

DXC Technology (NYSE: DXC) is a Fortune 500 global IT services leader with a focus on delivering excellence for our customers and colleagues — and all those we serve. Our more than 130,000 colleagues in 70-plus countries are entrusted by our customers to deliver mission-critical IT services to modernize operations, enable innovation across the IT estate and drive business impact. As an employer of choice with strong values — among them inspiring and taking care of our colleagues by fostering a culture of inclusion and belonging — DXC actively engages in our communities to produce beneficial outcomes for society. DXC's Environmental, Social and Governance (ESG) strategy reflects our ongoing commitment to responsible corporate citizenship.

## Environmental Commitment

At DXC, we focus on our customers, people and the global communities in which we do business. As a responsible corporate citizen with a commitment to environmental sustainability, we set and exceed ambitious environmental goals, and work toward circular-economy processes to mitigate climate impacts.

DXC is reducing our impact on the environment through the following actions:

- Implementing a virtual-first business model to enable a remote workforce, thereby reducing our office footprint, employee commuting and business travel
- Pursuing efficiency programs for offices and data centers to reduce energy consumption
- Procuring renewable energy to reduce carbon emissions
- Reducing waste generation, increasing recycling and working with suppliers to minimize waste and harmful environmental impacts
- Promoting sustainability and resource efficiency within our supply chain
- Designing solutions and services to optimize their environmental performance
- Providing sustainable products and services to help customers achieve their environmental goals

## Compliance Obligations

DXC will meet or exceed applicable regulatory obligations, client commitments and other environmental requirements to which DXC subscribes. This includes corporate reporting under recognized ESG frameworks.

To achieve the objectives outlined in this policy, DXC integrates environmental goals and objectives into its business planning, decision making, performance tracking and governance processes.

## Management Commitment

DXC senior management promotes a culture in the organization that supports the environmental management system, which includes providing appropriate resources and support to ensure the implementation of this policy in line with our business objectives and compliance obligations.

## Interested Parties

This environmental policy will be made publicly available for communication to interested parties. The policy will be updated regularly based on stakeholder involvement and requirements.

This policy applies to all DXC business operations and employees wherever they are carrying out work for and on behalf of DXC globally.

To support the implementation of this policy, DXC will maintain a program of training, audits and supplier assessments to ensure compliance to this policy and generate continual improvement.
