

SAP Signavio Process Insights

Accelerating process improvements across all business domains, leveraging advanced analytics for streamlined transformations.

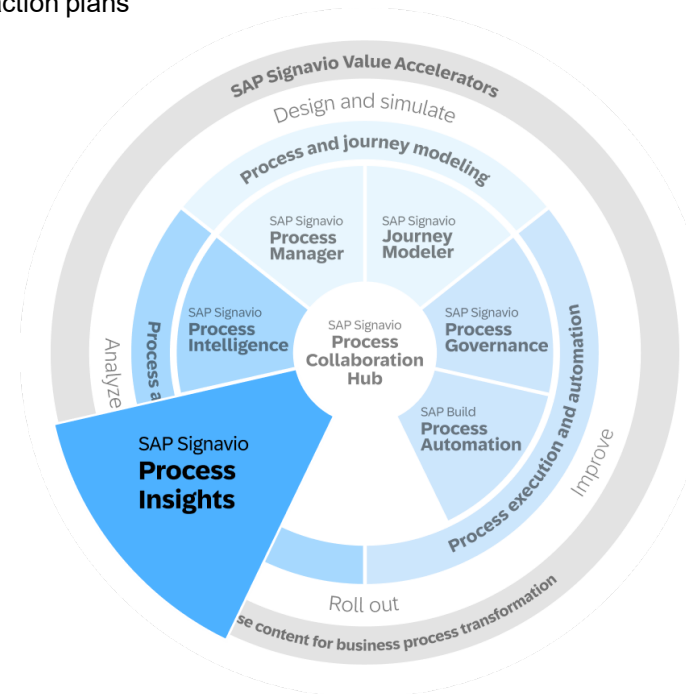

Solution Overview

DXC Technology empowers you to quickly gain invaluable insights into your business and process performance through SAP Signavio Process Insights. Within just 24 hours of simple configuration, this cloud solution delivers a comprehensive 360-degree overview of your company's operations, including out-of-the-box SAP processes, vital process metrics, and industry-specific benchmarking data. Uncover inefficiencies, address challenges, and achieve your business objectives with actionable improvement recommendations. These benefits are quantifiable, demonstrating a clear return-on-investment, making it an essential tool for both pre-SAP transformation planning and ongoing process optimization.

Customer Goals

- Immediate value realization and monitoring
- Measure performance based on industry-specific benchmarks
- Prioritization of process improvements to tackle quick wins
- Quantify current process and operational pain points to prioritize action plans

Features:

- SAP Processes
- Process Metrics
- Correction and Innovation Recommendations
- Industry and Internal Benchmarking
- Value Drivers
