

DXC Regulatory Information Management Platform

Simplify • Amplify • Comply

Accelerate innovation through a centralized, secure and automated management platform for regulatory affairs information and processes.

The sensitive nature of regulatory affairs (RA) content and processes demands a unified platform to streamline regulatory data and workflows. In addition, it is essential that teams across these RA processes can collaborate efficiently. This requires continuous interaction in an intuitive and accessible collaboration environment.

The DXC Regulatory Information Management Platform acts as your central hub — a cloud-based and scalable open platform that delivers enterprise-level security and integrated data flow across RA ecosystems.

Business value

Simplify key RA operational processes to bring products to market faster

Amplify user experience through extensive collaboration tools

Comply with RA requirements and process while maintaining efficiency and quality of data

Why choose the DXC Regulatory Information Management Platform?

Simplify

- Enhance productivity through effective automation features.
- Reduce cost of ownership with an out-of-the-box solution that provides speed, scale and built-in security.
- Monitor business performance through integrated data and real-time holistic reports.

Amplify

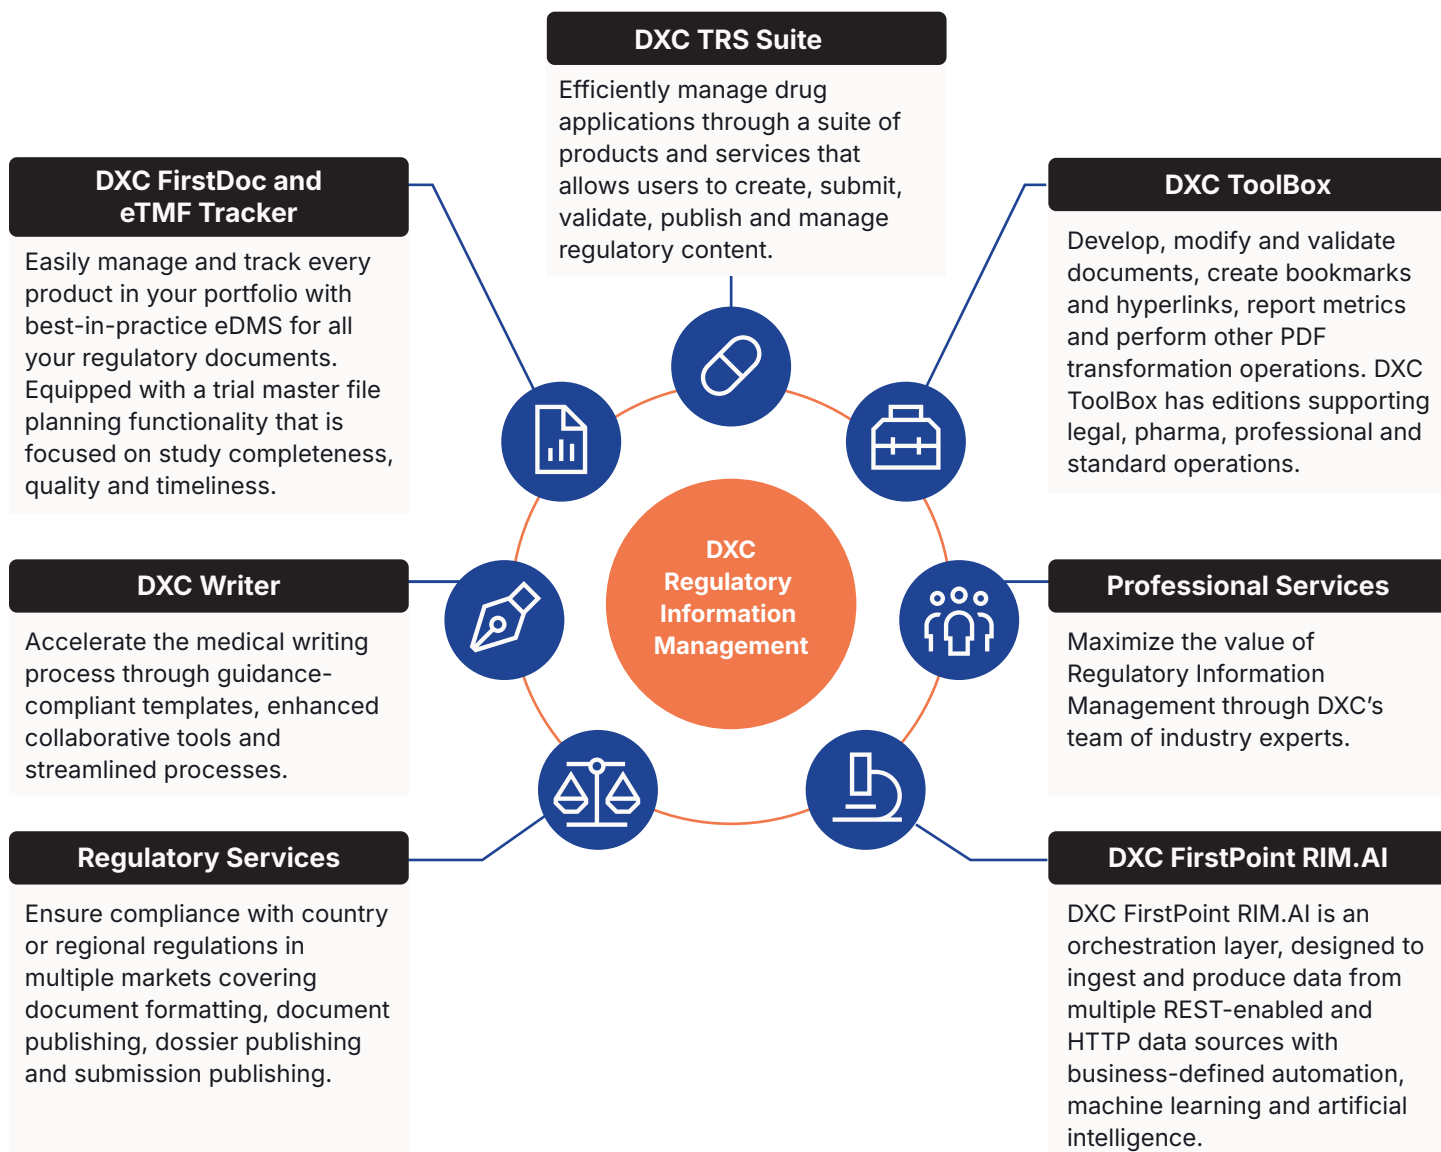

- Streamline business processes and communications through embedded collaborative tools.
- Increase output and improve data quality with advanced automation.
- Increase performance, strengthen strategy and improve time to market with data insights.

Comply

- Increase compliance by reducing manual errors with AI tools and advanced automation.
- Utilize reliable rules engines for policy-driven control.
- Comply with regulatory requirements across 13 regions, including electronic records management requirement 21 CFR Part 11 and EudraLex Annex.

Boost your organization's efficiency in managing regulatory information through our end-to-end solutions and services.
